1. OVERVIEW/BACKGROUND

All the regulations listed below are in addition to, or are modifications of, the Sport Organization Rules and the Kata Competition documents of the IJF. Since the IJF is responsible only for the sanctioning of World-level events, a number of areas are outside of their jurisdiction and thus require modifications/clarifications addressing various age groups.

1.1. Definition of a Tournament

Any Judo event in Canada that has an objective to determine a winner and/or to award prizes is considered a tournament and should be organized in accordance with the standards outlined in this document. Tournaments include both Shiai and Kata events. For practical reasons, events are classified into the following categories.

1.2. Classification of tournaments

1. **International** events organized in Canada under the jurisdiction of the International Judo Federation will be organized according to the IJF Sport Organization Rules (available at the <http://www.ijf.org/>).
2. **International-National** events organized in Canada under the jurisdiction of Judo Canada will be organized according to the current *Judo Canada Sanctioning Policy & Tournament standards*.
3. **Provincial and Regional** events organized in Canada under the jurisdiction of any provincial/territorial judo association will be organized according to the current *Judo Canada Sanctioning Policy & Tournament standards*.

1.3. Sport season

Judo sporting season in Canada is from September 1 of the current year to August 31 of the next calendar year. Note that it is different from the International Season which is consistent with the calendar year of January 1 to December 31.

1.4. Mission

- To standardize the operation of judo tournaments in Canada;
- To ensure that tournaments are delivered in a safe and developmentally appropriate fashion consistent with the Long-Term Development Model approved by Sport Canada and Judo Canada;
- To challenge tournament organizers to host top quality events that will showcase judo to the public, the media and the membership of Judo Canada.

1.5. Principles considered

1.5.1. Sport Development

Participation in competition is an integral part of sport and it should offer a positive experience to the participants, volunteers, officials, coaches, parents and spectators. Safe environment, adherence to verified standards, developmental appropriateness of tournament formats and positive reinforcement for participating judoka are some of the necessary elements needed to encourage involvement in competitive judo.

1.5.2. Entertainment

One of the goals of hosting a judo tournament is to win the support of the general public and media. Attention must be placed on non-technical aspects. Analyze the competition from the spectator's point of view. Pay attention to presentation of the venue; the schedule and its communication to the public; the quality of announcements, etc.

1.5.3. Volunteers

Regardless of the size of the event, one of the keys to hosting a successful judo tournament is a well-structured Organizing Committee. Everyone must have a clear understanding of roles and areas of responsibility before committing to the project. At the time that volunteers are being recruited, it is essential that they are presented with a detailed job description, understand the reporting structure, know how their position fits into the overall organization, and most importantly, can commit to the number of hours of service required. Detailed job descriptions are available in **Appendix 06** of this policy.

1.5.4. Tournament Organizing Committee

Depending on the size and scope of the event, the leadership may be as small as one person (e.g. a Technical Director of the dojo for a small club tournament) to as large as an Executive Committee of an independent corporation run by a professional staff for a large-scale International Event. The leadership of the organizing committee must keep the project on task and within budget. A detailed task list, with established deadlines and priorities, will ensure that the tasks are completed on time and remain coordinated between the various subcommittees. It is essential that volunteers can deliver on schedule. When a task is not completed as required the volunteer must be made aware of his/her responsibility to the other members of the committee and the problem must be rectified as quickly and efficiently as possible.

- Number of volunteers and defined roles: Hosting a successful competition takes many volunteers. Use the proposed Judo Canada job descriptions and stick to them.
- One volunteer = one job. Do not overload volunteers with a variety of tasks; you will lose them, and their job will not be done well. See the appendix of this Policy for the proposed structure of the Organizing Committee and job descriptions for volunteer personnel.
- One of the goals of hosting an event is to popularize judo. The presentation of the event must appeal to today's sporting industry consumer. Enlist the support of non-judo volunteers, parents, service clubs who may bring a different perspective and expertise.
- An opening ceremony should take no more than ten minutes. The shorter it is, the better.
- Whenever logistically possible, the medal ceremony should be integrated into the final order

Judo Canada's programs are sponsored in part by Sport Canada

Canada

of matches and not left to the end of the competition when often there are no spectators left.

- The competition site cannot be disassembled until the last medal ceremonies are concluded.

2. SANCTIONING POLICY AND PROCEDURES

2.1. Sanction levels

Judo tournaments held in Canada are required to meet or exceed standards that are presented in this document. Judo Canada and Provincial or Territorial Sport Organization (PTSO) will issue three different levels of sanctions:

2.1.1. Sanction level “A”

National tournaments that are assigned by Judo Canada as National Ranking point events.

Judo Canada will designate or approve the Tournament Director, Chief Official, Head Referee and/or Head Kata Judge for such events. A formal signed contract will need to be submitted to Judo Canada by August 31st of every year by the PTSO.

2.1.2. Sanction level “B”

Tournaments that are organized (or supported) by a provincial judo organization and open to other provincial organizations or other national organizations.

The respective provincial judo organizations oversee ensuring that the event complies with the standards of the current *Judo Canada Sanctioning Policy & Tournament Standards*. Judo Canada will not be involved in the organization or operation of “B” sanctioned competitions. A formal request shall be submitted to Judo Canada by August 31st of every year by the PTSO. No “B” Sanctioned events can be scheduled on dates reserved by Judo Canada for “A” sanctioned National Ranking point events.

2.1.3. Sanction level “C”

Tournaments that are organized (or supported) by a PTSO that are restricted to a specific province.

The PTSO will oversee delivering the “C” sanctions in their jurisdiction. The respective provincial judo organizations oversee ensuring that the event complies with the standards of the current Judo Canada Sanctioning Policy & Tournament Standards. However, the related standards outlined in the Policy may be modified and made more but not less restrictive by specific regulations approved by a PTSO or imposed by local governments. A list of all “C” sanctioned events organized in the Province/Territory must be submitted to Judo Canada at the end of each season.

2.2. Sanctioning Procedures

Both Shiai and Kata events require sanctioning. Combined events including both Kata and Shiai will require two sanctions, as they are considered separate events and the level of sanction may be different for both events.

- The PTSO planning to run an “A” level event files a bid if required (new event) or submits a sanctioning agreement (existing event) to Judo Canada.
- The organizer planning to run a “B” level event must apply for sanctions to their respective

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

PTSO. The PTSO will be required to sign and submit a sanctioning agreement to Judo Canada.

- The organizer planning to run a “C” level event, must apply for sanctions to their respective PTSO.

2.2.1. Required documentation for sanctioning

When requesting a sanction, the following documentation must be submitted to Judo Canada for “A” and “B” level events:

- Completed sanctioning application form (available in appendix 02);
- Draft technical package ;
- Draft venue plan (for “A” sanctioned events only).

For “C” level events the required documentation is determined by the relevant PTSO.

2.3. The date of the tournament

According to the level of sanction required, the date of the tournament must be approved by the Judo Canada Tournament Committee, or PTSO to fit into the yearly competition calendar. The goal of the scheduling is to benefit the development of the athlete in accordance with the Long-Term Athlete Development Model and minimize schedule conflicts with other events.

2.4. The name of the event

The **name of the event** must not be misleading must not compromise another organization’s rights nor express an authority that is beyond that of the organizing committee (e.g. the IJF has the expressed rights to “World” level events, the PJC has the expressed rights to “Continental” level events, Judo Canada has the expressed rights to “National” level events, etc.).

2.5. Specific requirements for sanctioned tournament

2.5.3. Specific requirements for “C” sanctioned tournaments

- Organize the event in a manner compliant with the current *Judo Canada Sanctioning Policy & Tournament Standards* and the relevant PTSO standards.

2.6. Venue requirements

Venue size is according to the amount of competition areas required for the event. There should be enough room for the competition areas, plus additional room around the areas for all other equipment.

There should be a clear separation (barriers) between the specific areas for spectators, athletes and tournament management areas.

2.6.1. Combat Surface Size

The **recommended** size of the Shiai competition area is 8mx8m with a 3m outside safety zone and **4m** between adjacent combat areas.

The **minimum** size of the Shiai competition area is 7mx7m with a 3m outside safety zone and **4m** safety zone between adjacent combat areas.

For “C” sanctioned events for U16, the minimum combat area may be reduced to 6m x 6m and for U14 and younger to 5m x 5m. The safety zone around is **3m** and **3m** between adjacent combat areas.

For club events of U14 and younger, the **safety zone** may be reduced to 2 metres, providing that the rules are adapted to make the event safe. (eg: padded walls)

Demonstration events (judo Festivals) for individuals who do not require adherence to a specific tournament standard and may be conducted in dojos.

For Kata tournaments the recommended size of the competition area is 8m x 8m. The safety zone between areas and around the area must be no less than two (2) meters with a preference for three (3) meters.

2.6.2. Warm-up Area

Warm-up area should be within the main venue or in close proximity. Warm-up area minimum recommended size is 100 m² but larger is better.

2.6.3. Rooms

Each venue must ensure a “blood free” environment. To remove any blood contamination from the combat zone, chlorine solvent must be available for cleaning.

2.7. Medical Requirements

The medical/therapy supervision and care at competitions is a fundamental aspect of hosting any competition. The organizing committee must ensure that medical staff will be on site to provide appropriate medical care as needed for both Shiai and Kata competitions.

2.7.1. At National Championships

Judo Canada will appoint a Chief Medical Officer (CMO) who will oversee the medical aspect of the event. The CMO will be on-site during the tournament and will work with the local medical staff.

The Local Organizing Committee (LOC) must appoint a local medical liaison officer that will be in close contact with Judo Canada’s Chief Medical Officer to organize the medical aspect of the event. Judo Canada strongly recommends that the local medical liaison officer works in the medical domain.

The Chief Medical Officer will be in charge of the medical staff designated by the local medical liaison officer.

The medical staff hired for the event must meet the professional standards listed below. Other qualified professionals may be considered as staff for the event but must be approved by Judo Canada’s Chief Medical Officer. Judo Canada strongly recommends that a medical doctor be present at all times during the event.

- Contact information of all the medical staff.

NOTE: The same person cannot assume more than one role as part of the emergency action plan.

2.7.4. First Aid Kit/Medical Equipment

Each venue hosting judo competitions must be equipped with a first aid kit. Refer to the Appendix 05: Medical equipment for a list of required and recommended equipment.

Each host is responsible for replacement of the supplies used by the attending medical personnel.

2.7.5. AED (Automatic External Defibrillator) and Oxygen

In addition to the above, each organizing committee hosting judo competitions must offer access to an AED (automatic external defibrillator) on site. We recommend that the AED be located directly in the medical area.

Also, Judo Canada strongly recommends to each organizing committee hosting judo competitions for Veteran Athletes to offer access to an oxygen tank and non-re-breather oxygen masks.

2.9. Tournament Report

Tournament records include tournament technical package, entry lists of athletes, referees, judges and coaches, weigh-in sheets, final complete results, medical reports, withdrawal summary sheets, Hansoku-make and coach suspension forms, and tournament draw sheets. The complete tournament report includes all of the tournament records, plus any additional material deemed necessary by the organizers.

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

- For Open Nationals and “A” sanctioned events the results must be sent to Judo Canada, within 72 hours of the event, in the format approved by Judo Canada. The complete tournament report must be sent within 2 weeks of the event. Judo Canada will keep the tournament records.
- For “B” sanctioned events the results must be sent to Judo Canada, within 72 hours of the event, in the format approved by Judo Canada. A simplified tournament report must be sent within 2 weeks of the event, including medical reports, withdrawal summary sheets, Hansoku-make and coach suspension forms. The tournament records should be kept at the office of the PTSO for 3 years, and made available to Judo Canada upon request.
- For “C” sanctioned events the records should be kept at the office of the PTSO for 3 years, and made available to Judo Canada upon request. For “C” sanctioned kata events, the list of judges should be sent to Judo Canada.

3. SHIAI TOURNAMENT FORMAT

3.1. Shiai formats

The tournament format must be announced in advance of the event; the latest being at the time of the sanctioning application. It must be described in the tournament technical package.

For Shiai events taking place in Canada, the following formats may be used:

- a. For weight categories with eight (8) or more entrants:
 - Modified double elimination system
 - Double repechage system
 - True double elimination system.
 - Multiple pool elimination systems.
 - Direct elimination with or without quarterfinal repechage.
- b. Weight categories with seven (7) or fewer entrants:
 - Two (2) pool system for six (6) and seven (7) entrants.
 - One pool system (Round Robin) for five (5) and fewer entrants.
 - Best of three for a category with only 2 participants.
 - Modified double elimination.
 - True double elimination.
 - Direct elimination with or without quarterfinal repechage

3.2. Recommended formats

For Open Nationals, the following formats are used :

- Modified double elimination for categories with 8 or more entries;
- Pool system (single or double pool) for categories with 3 to 7 entries;
- Best of 3 for categories with 2 entries.

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

For “A” sanctioned events, the same formats as Open National must be used for the divisions at Open Nationals.

In all events, for novice divisions of age U16 and above, the same formats as Open Nationals can be used. Otherwise, a pool system can also be used, according to the number of entries.

For Open weight divisions, a direct elimination system is recommended.

For U14 division, the recommended formats are Modified double elimination or pool system, using single pool or double pools, according to the number of entries.

For U10/U12 divisions, the recommended format is single pool system with pool of a maximum of 5 athletes.

For Team events, recommended formats are direct elimination with or without quarterfinal repechage or modified double elimination.

3.3. Format details

3.3.1. Modified Double Elimination system

The winner of each match advances to the next round until only one undefeated athlete remains in championship tables A and B. These athletes meet to determine the gold and silver medals.

After a first loss in the championship tables A or B, the losing athlete moves to the corresponding repechage table according to the bout number just fought. Bout numbers in the championship table (A1, A2, A3 and so on) have a corresponding match in the repechage tables which indicates the next position for the loser of the bout. Repechage is done alternately from top to bottom and bottom to top in each consecutive round.

A loss in the repechage table eliminates the athlete from further competition. The winners of each repechage table are awarded bronze medals.

Note that in this tournament format, some athletes may meet twice during the competition: first time in the main table and again in the repechage table.

3.3.2. Pools system

3.3.2.1. For categories with 6 or 7 athletes,

Preliminaries consist of pools of three (3) or four (4) competitors as necessary.

Two (2) competitors are selected from each pool.

Competition is by direct elimination after the pools.

Winner of pool A fights the second place of pool B and the winner of pool B fights the second place from pool A.

Winners of these bouts meet to determine the gold and silver medals and losers are awarded bronze medals.

3.3.2.2. Categories with 3 to 5 competitors

The competition consists of one pool of three (3) or four (4), or five (5) competitors as necessary.

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

3.3.2.3. Categories with 2 competitors

In weight categories with 2 competitors, the competitors fight twice.

In case of a tie in victories, a third fight is held.

3.3.2.4. Winner of a pool

Determination of a winner in a pool is made on the following basis:

- The highest total number of wins determines the winner.
- In case of a tie in number of wins, the highest point score determines the winner.
- In case of a tie in points, the competitor having won his/her fight in the pool is declared the winner (who beat whom)
- In case of a triple tie, see Tie-breaker criteria
- Point system

Call	Equivalent	Points	Abr.	Explanation
Ippon		10	IPO	Full point
Waza-ari		7	WAZ	technical win
Yuko		5	YUK	technical win
Hansoku-make	Ippon	10	HAD	Disqualification
Hansoku-make from for 3 rd Shido	Ippon	10	HAN	Disqualification
Fusen-gachi		10	FUS	Default
Kiken-gachi		10	KIK	Injury during the bout
Yusei-gachi		1	YUS	For age divisions without GS

In a pool tournament format, when an athlete is withdrawn for medical reasons or Hansoku-make, the opponent(s) continuing in the pool receive(s) points for Fusen-gachi.

3.3.2.5. Tie breaking criteria for a pool system

The tied competitors compete again, Round Robin in a pool of three. In this situation, it is at the discretion of the Tournament Director to use the **Golden Score** timing principles from the beginning of the bout, reducing the possibility of a next triple tie.

- However, if after this round of bouts competitors are still tied in wins and points, the one with the shortest total time of won bouts (from both the tiebreaker round and the first round matches that created the tie) is placed first, the competitor with the second shortest total time of won bouts is placed second and the third one is placed third.
- In case the tie persists, the weight of the competitors recorded during official weigh in

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

determines their placing. The lightest places first, second lightest second, etc.

IMPORTANT: In pool format, the time of each bout **must** be correctly recorded.

3.3.3. Double Repechage system (and quarterfinal repechage)

Participants in each weight category are drawn into two tables, "A" and "B". Each table is subdivided into two (A1, A2, B1, B2).

Straight elimination is used until the finalists are determined for each subgroup.

Repechage competition begins after the winners of the A1, A2, B1 and B2 subdivisions are determined and include all the participants that lost to one of the semi-finalists in any round. A variant in this system is quarterfinal repechage where only the participant that lost the quarterfinal round goes to repechage.

Winner A1 meets winner A2 and winner B1 meets winner B2 to determine the winners of tables A and B, respectively.

Winners of table A and table B compete to determine first and second place (gold and silver), while the losers compete for third place against the winners of the repechage from the opposite table. The winners of these bouts receive bronze medals.

3.3.4. True Double Elimination System

Similar to modified double elimination, except the competition continues until each of the athletes, with the exception of the winner, loses twice. In this system, an athlete who loses one bout can still win the competition.

The winners of pool A and B fight and the loser of that bout fights the winner of the repechage.

3.4. Ne-waza format

Ne-waza competitions follow the same formats as for Shiai.

3.5. Team format

3.5.1. Team composition

Team composition can include all male, all female or mixed team of a single age division. The recommended number of participants usually ranges for 4 to 7 participants per team. Odd numbers are recommended to minimize the possibility of ties.

Team composition may also include substitute athletes. Rules for the number of substitutes and for substitution of athletes between rounds should be described clearly in the tournament technical package.

It is recommended that a team must consist of a minimum half the number of categories (for example, at least 3 competitors for a 5-member team) to be allowed to register and compete.

3.5.2. Weight Categories

Weight categories should be selected within the weight categories for the specific age divisions. Some weight categories will be merged together (usually the lighter weights and the heavier

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

weights) to obtain the correct number of weight categories for the event.

For example, a senior female team event in a team of 5 could offer these weight categories

- -52 kg (including both -48 kg and -52 kg categories)
- -57 kg
- -63 kg
- -70 kg
- +70 kg (including both -78 kg and +78 kg categories)

3.5.3. Team matches

Within each match, the team bouts will be fought in any order as per the tournament technical package. It is recommended to rotate the starting weight category in each round.

Before each round the team leader/coach must present to the Tournament Director the composition of his team for the round.

Each competitor/substitute is usually allowed to fight in their own weight category or in the next higher weight category.

Each bout in a team event must determine a winner. Either golden score rule or decision rule must be applied according to the age specific rules.

3.5.3.1. Winning criteria

- The highest total number of bouts won (regardless of the scores) in the match determines the winning team;
- In case of a tie in wins, a random draw will be made of one category and one pair will refight a golden score contest to decide the winning team.

4. KATA TOURNAMENT FORMAT

Kata competition in Canada does not have gender specific divisions. All females, all males or mixed pairs are accepted.

4.1. Age divisions

There are three age groups for Kata competitions.

- Senior - In season 2024/25: individuals born in 2010 and earlier for both Tori and Uke.
- U23– - In season 2024/25: individuals born in 2003 - 2010 for both Tori and Uke.
- U16– - In season 2024/25: individuals born in 2010 - 2013, for both Tori and Uke.

4.2. Belt divisions

Advanced

- Senior division, minimum rank brown belt for Tori and Uke.
- U23 division, minimum rank green belt for Tori and Uke.
- U16 division, minimum rank orange belt for Tori and Uke.

Judo Canada's programs are sponsored in part by Sport Canada

Canada

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

Novice

- Senior division, yellow belt to blue belt for Tori and Uke.
- U23 division, yellow belt to orange belt for Tori and Uke.
- U16 division, yellow belt for Tori and Uke.

4.3. Recommended format

At Open nationals, the following Katas are presented :

Senior advanced division	U23 advanced division	U16 advanced division
<ul style="list-style-type: none">• Nage-no-Kata• Katame-no-Kata• Ju-no-Kata• Kime-no-Kata• Kodokan-Goshin-Jutsu	<ul style="list-style-type: none">• Nage-no-Kata• Katame-no-Kata• Ju-no-Kata• Kime-no-Kata• Kodokan-Goshin-Jutsu	<ul style="list-style-type: none">• Nage-no-Kata (3 series)• Nage-no-Kata• Ju-no-Kata• Kodokan-Goshin-Jutsu• Katame-No-Kata

For all “A” sanctioned events, all divisions presented at Open Nationals must be offered. Novice divisions can also be offered at the discretion of the organizing committee.

For all “B” sanctioned events, the divisions must follow the age and belt divisions as specified above. The divisions presented (Advanced and/or Novice) are at the discretion of the organizing committee.

For other events, the divisions presented are at the discretion of the organizing committee. Adjustment in the age and belt divisions are allowed as required.

No musical Katas are allowed in competitions.

4.3.1. Multiple participation

At the Open National Championships, a competitor may only participate once in the same Kata either as Tori or Uke in each age division.

For “A” sanctioned Kata events and lower, the competition may also include only the first three series of Nage-no-Kata for U23 and senior age divisions.

To accommodate for grading purposes, for that specific Kata division only (Nage-No-Kata 3 series) a competitor may be allowed to participate both as Tori and Uke. In that case, the specific information must be published in the technical package.

A competitor with multiple participation in Nage-No-Kata (3 series) may only have one position on the podium e.g. only silver if they placed silver and bronze. In this case the pair who came 4th would be awarded bronze.

4.4. Draw procedure

For Kata events taking place in Canada, a random draw of presentation order is made for each division (or each group).

Judo Canada's programs are sponsored in part by Sport Canada

Canada

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

For divisions with more than 12 entries, a format with preliminaries and final round can be used. Entries are separated into two groups for preliminaries. The top three (3) pairs of each group are placed in a random draw for the finals round to determine gold, silver and bronze. Preliminary scores do **NOT** carry over into the final-round scores.

4.5. Injuries

Minor injuries should be handled as per IJF rules (**SOR rule B1.10**) :

Minor injury and illness:

- *In case of a minor injury like bloody wound, broken nails or a problem with contact lenses, etc., and according to the decision of the judges, the kata performance will be stopped, and the athlete will be assisted by a doctor out of the competition area if needed. The competition will continue, and the pair will repeat entirely the kata after the last pair has performed.*
- *In case another minor injury happens to the same athlete during the second performance of the kata or after a forgotten technique or a major mistake, the pair will be given a score of 0 for the technique where the injury occurred as well as for the following techniques including the closing ceremony. A ranking will be assigned to them in the pool or in the final. If ranking them allows them to participate in the final, the next pair in the ranking from the pool will participate in the final.*

Major injury or illness:

- *When tori or uke is unable to continue to perform the kata because of an injury, illness or accident during the execution of the kata, the pair will be given a score of 0 for the technique where the injury occurred as well as for the following techniques including the closing ceremony. A ranking will be assigned to them in the pool or in the final. If ranking them allows them to participate in the final, and they are not physically able to compete, the next pair in the ranking from the pool will participate in the final.*

5. TOURNAMENT PROCEDURES

5.1. Tournament technical package

The tournament technical package must include all the required information necessary for participants (athletes, coaches, officials, etc) to register and participate in the event.

5.2. Registration

5.2.1. Registration setup

When using pre-registration, the use of Trackie software is recommended. Trackie registration for participants should include all the relevant information for the event, but also contact points for communication (if required) before the event.

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

5.2.2. Eligibility

The tournament organizing committee has the responsibility to validate eligibility of athletes in the division that they are registered.

5.2.2.1. Membership

Participants in any tournament in Canada must be members of Judo Canada or members of another judo association recognized by the IJF. It is the responsibility of the Organizing Committee of any tournament taking place in Canada to verify membership status of each entered athlete, referee, etc.

The onus of proof of membership is on the athlete, referee, etc or the designated Provincial/Country representative. Judo Canada membership can also be validated using the online tool: [https://judocanada.org/membership /](https://judocanada.org/membership/)

5.2.2.2. Early Bloomer

For all National events (“A” or “B” sanctioned), the “early bloomer” status will be granted by Judo Canada’s Designated Official.

Early Bloomer status is available to all athletes who submit the required declaration of skill level form at: <https://forms.gle/suzkvn6PKHkE7jnS8>.

Judo Canada will maintain a database of requests and make available the list of approved early bloomers to tournament organizers to confirm eligibility of registrations.

Deadline for approval of application should be stated in the technical package of each event. Recommended deadline is at least one week before the date of the event.

5.2.2.3. One Division per Day & Exceptions

In “A” sanctioned tournaments, competitors of any age group are allowed to compete only in one Individual Tournament division per day, except in the following circumstances:

- The **open weight division** is contested at that same Tournament on the same day; NOTE: Open weight division events are allowed **ONLY** in the Senior and Veteran age groups.
- A **team tournament** event is conducted on the same day.
- A Ne-waza event is conducted on the same day.

When the number of competitors in a division is four (4) or less and the tournament schedule allows it, the athlete may enter an additional division at the discretion of the Tournament Director.

In “B” and “C” sanctioned tournaments, participants in that tournament are allowed to compete in a second division taking place on the same day providing that the second division is scheduled in a separate block of the event and at the discretion of the Tournament Director.

trained Competition Development coach. Assistant Coaches must be minimum trained Dojo Instructors.

At **Provincial/Territory** level events (“B” and “C”), the minimum recommended level for a **head coach** is certified dojo Instructor. **Assistant coaches** are recommended to be at minimum trained Assistant Instructors.

At local club events, Community coaches may assist in coaching athletes from their community clubs.

The tournament organizing committee has the responsibility to validate certifications.

5.3. Weigh-in

The Tournament Director (or his designated official) is responsible to oversee the weigh in to ensure all rules are followed and solve any problems.

Any athlete not making weight in the division they are registered in is given the option of moving up (or down) to the category corresponding with their weight or withdrawing from the competition, unless no changes are allowed as specified in the technical package.

In all events in Canada, the official weigh-in may take place on the day prior to the event or on the day of the event as specified in the technical package.

5.3.1. Weigh-in rooms

Weigh-in rooms should be separate dedicated rooms (no public access) for males and females. Access to the rooms must be restricted to the specific gender. No female parent/coach/athlete/official is allowed in the male weigh-in room and vice versa.

5.3.2. Weigh-in Procedure

5.3.2.1. Official & Trial Scales

A set of trial scales or access to official scales must be available to the participants of the event.

If the trial scales are not the same as the official scales, these must be calibrated to read identically to the official scales. In case when the trial scale does not read identically as the designated official scale, the scale that reads lower has to be designated as the official scale.

The required accuracy for scales is the first decimal digit after kilogram reading. If the display shows more digits, these must be covered by non-transparent tape.

5.3.2.2. Male and female trial scales

Trial scales for male and female athletes must be placed in separate rooms.

5.3.2.3. Weigh-in officials

All weigh-in room officials must be of the same gender as the athletes.

Each scale is serviced by a minimum of two designated officials. One official is checking the identity documents of the athlete prior to the stepping on the scale; The second official ensures that the weigh-in is done without interference from other athletes or coaches, reads and

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

announces the exact weight, which is then recorded by the first official on an official weigh-in sheet (or coupons).

In large events, additional officials are recommended to ensure an orderly traffic of athletes.

Sample cheat sheets for weigh-in attendants are available in Appendix 07

5.3.2.4. Unofficial weigh-in and trial scales

For “A” and “B” sanctioned tournaments, trial scales must be available in the weigh-in rooms until the end of the official weigh in. **The official scales** must also be available to the athletes for unofficial weigh in, one hour prior to the start of the official weigh-in.

5.3.2.5. Minimum Timeline.

For “B” and “C” sanctioned tournaments, the weigh-in may take place a day prior to the event or on the day of the event.

When weigh-in takes place on the day of the tournament, the official weigh-in must end a minimum of one hour prior to the start of competition.

5.3.2.6. Weight Class & Scale

Each weight class is assigned to a specific scale. Contestants must weigh themselves on the assigned scale only and cannot change.

5.3.2.7. Identification

Each athlete is required to present identification documents as specified in the event Technical Package and these may include accreditation card and a government issued photo ID (or ID for younger divisions).

Valid documents include drivers’ licence, Canadian passport, citizenship card, permanent resident card, medical card, student card.

5.3.2.8. Removal of Clothing

The athletes of age U21 and older shall weigh in wearing only underclothing (men/boys – underpants and optional t-shirt , women/girls – underpants and bra and/or optional t-shirt). Any socks, jewelry or body piercings must be removed. Athletes are allowed to remove their underclothing – without stepping off the scales or briefly stepping off the scale if so instructed by the official - to ensure they reach the minimum or the maximum weight limit of the weight category in which they are entered. No weight tolerance is allowed.

The athletes of age U18 and younger shall weigh in wearing only underclothing (men/boys – underpants and optional t-shirt , women/girls – underpants and bra and/or optional t-shirt). Any socks, jewelry or body piercings must be removed. For this age group, a tolerance of 0,2 kg is applied to accommodate for the weight of the underclothing and optional T-shirt. Athletes of these age divisions are NOT allowed to remove their underclothing.

All athletes of the age group U12 and younger shall weigh in with judogi pants and t-shirts, no exceptions, and no weight tolerance is granted.

5.3.2.9. Weight Tolerance

Unless noted otherwise in this document or in the tournament technical package, no weight

Judo Canada's programs are sponsored in part by Sport Canada

Canada

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

tolerance is accepted.

Athlete's weight must be within the lower and upper limits of the category for which they are registered.

In case two weight categories are combined according to the technical package, the athlete must weigh within the lower limit of the lower weight class and the upper limit of the higher weight class.

5.3.2.10. Checking Weight

Each athlete is allowed to step on the scale only once for no more than 60 seconds. A brief step-down from the scale to remove clothing or to cut hair is allowed if so instructed by the official.

5.3.2.11. Recording Weights During the Official Weigh-in

The exact weight of the athletes, with one decimal, including heavy weights, must be entered on the weigh-in sheet, together with the signatures and initials of the weigh-in officials.

For events where entries are made to a specific weight division in case the athlete does not meet the weight standards, the weight must be duly recorded and confirmed with a signature of the weigh-in official and a witness.

5.3.2.12. Pre-registration, Weight Disqualification & Refunds

At events where athletes are preregistered, any athlete who does not show up at the weigh-in, will be removed from the draw. Any athlete who does not meet the weight requirements will be offered to change weight category unless the technical package does not allow it.

No refunds will be made for not meeting the weight requirements.

5.3.3. Athletes with multiple entries

Athletes competing in two different age divisions but in the same weight category on two consecutive days of an event will not need to weigh in for the second division. They will be kept in the draw for the second division unless they check out before the cut-off time, indicated in the technical package.

Athletes competing in two different age divisions but in different weight categories (because the corresponding weight category does not exist) on two consecutive days will not need to weigh in for the second division if their weight is within the limits of the second division. For example, an athlete weighing in on day 1 for -66 kg Ne-Waza would be accepted for -60 kg senior on day 2 if their weight is at or below 60,0 kg. They will be kept in the draw for the second division unless they check out before the cut-off time, indicated in the technical package.

Athletes competing in two or more age divisions, in the same weight category during the same event, but not on consecutive days will need to weigh in for the second (or third) division but will be allowed a weight tolerance of up to 5% of the maximum weight for that division.

5.3.4. Random weigh-in checks

NO random weigh-in checks will be conducted on the day of the competitions except when it is requested by the HP Committee during Open Senior Nationals divisions. When such a request is made, a random weigh-in will be conducted as per the IJF regulations.

Judo Canada's programs are sponsored in part by Sport Canada

Canada

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

5.3.5. Honour System

Honour system can be used for U14 and younger divisions, with weights being sent in kg with registrations. In that case, random weigh-in checks may be used by the organizers as described in the technical package of the event. Weight tolerance should be indicated in the package.

5.3.6. Remote Weigh In

Remote weigh in is allowed in “B” and “C” sanctioned events according to the technical package of the event. For “A” sanctioned events, remote weigh-in is allowed only for divisions not competed in at Open Nationals.

Remote weigh in should be run with the same requirements as official weigh in as defined above.

5.3.7. Alternate weigh-in options

Request can be made to Judo Canada for alternate options to weigh in for “B” sanctioned events and will be evaluated on a case-by-case basis.

5.4. Seeding

All National “A” sanctioned tournament must use the seeding format as described in this section. Judo Canada will provide the seeding prior to each “A” sanctioned event.

5.4.1.1. For Shiai events

- U16, Veterans and Ne-waza divisions: No seeding will be used.
- U18 divisions: National Team U18 Ranking Points will be used.
- U21 divisions:
 - Priority 1: National Team U21 Ranking points will be used.
 - Priority 2 (if fewer than 4 athletes have National Team U21 Ranking Points): The National Team U18 Ranking Points will be used.
- Senior divisions:
 - Priority 1: National Team Senior Ranking points will be used.
 - Priority 2 (if fewer than 4 athletes are seeded): National Team U23 Ranking points will be used.
 - Priority 3 (if fewer than 4 athletes are seeded): National Team U21 Ranking points will be used.
 - Priority 4 (if fewer than 4 athletes are seeded): National Team U18 Ranking points will be used.

Seeding of the top four (4) ranked athletes will be used as follows:

- #1 seed vs #4 seed (with variable position for #1 seed)

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

- #2 seed vs #3 seed

5.4.1.2. For Kata events

For Kata events, no seeding will be used at the moment

5.5. Draw for Shiai events

5.5.1. Draw procedure

For all competitions, the draw is conducted after the weigh-in has been concluded and all weigh category changes and combining are resolved.

Care should be taken for events with multiple divisions/days to ensure that withdrawals are followed properly as medical and Hansoku Make withdrawals may occur after the draw for the next divisions/day. If necessary, draws may have to be changed accordingly.

Athletes that have multiple entries and don't need to weigh in a second time must be kept in the draws unless they checkout.

Use of a computerized competition-management system that offers a randomized draw option is recommended in all tournaments, but mandatory for "A" and "B" sanctioned events.

During the draw/athletes placing, every effort will be made to ensure athletes from the same province/region/club (depending on the level of the event) do not fight in the first round(s). At Nationals Championships, the sorting is done by province/territory only.

5.5.2. Category combining

The Tournament Director will combine categories as required to offer the best possible Shiai experience to athletes.

Category combining will happen when a weight category has only one competitor after weigh in, and may happen when a category has only 2 athletes.

The possible options for category combining are :

- Merging the category with 1 or 2 athletes to the next higher weight category ;
- Merging categories of the same weight, but different belt divisions (for example merging orange belt with green belts);
- In case the first two solutions are not possible, merging an athlete into an older corresponding weight and belt category if the athlete meets the older age group requirements.

5.5.2.1. Category Combining for veterans

Combining categories for veterans should follow the specific preferences :

1. Combine using weight categories in the same age division.

Individuals should remain within their age division if possible. Competitors may only be combined with other competitors who are no more than one weight category lighter or one weight category heavier.

Special consideration should be given to the actual weight differences when dealing with the

Judo Canada's programs are sponsored in part by Sport Canada

Canada

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

lightest and the heaviest female and male categories (as a guideline a maximum of 15 % weight difference should be considered:-

Weight should be the primary consideration when moving athletes about within their own age division or combining them with other age divisions in accordance with the age division guidelines below.

2. Recommendation for combining age divisions

Competitors in age divisions M7 or F7 and above (for example M8/F8, M9/F9 etc.) may only be combined with other competitors who are no more than one age division higher or more than one age division lower, i.e. Competitors in M7/F7 may only be combined with competitors from M6/F6 or M8/F8.

Competitors in divisions M6 or F6 may be combined with competitors no more than one age division higher or two age divisions lower, i.e. M7/F7, and M5/F5, M4/F4

Competitors in divisions M5 or F5 may be combined with competitors no more than one age division above or two age divisions below, i.e. M6/F6, and M4/F4, M3/F3.

Competitors in divisions M4 or F4 may be combined with competitors no more than two age divisions above or two age divisions below, i.e. M6/F6, M5/F5, and M3/F3, M2/F2.

Competitors in divisions M3 or F3 may be combined with competitors no more than two age divisions above or two age divisions below, i.e. M5/F5, M4/F4, and M2/F2 M1/F1.

SANCTIONING POLICY & TOURNAMENT STANDARDS 2024 - 2025

“Although the focus of the Canadian Centre for Ethics in Sport (CCES) is on the athlete competing at the International and National levels, all judo events conducted in Canada are subject to the Canada’s Anti-doping Policy and are therefore subject to unannounced doping control. To learn more about this policy, athletes should be advised to take the following steps:

- **Check the Global DRO (www.globaldro.com) to determine if any prescription or over-the-counter medications or treatments are banned by the WADA Prohibited List.**
- **Review medical exemptions requirements (www.cces.ca/medical-exemptions) if you require the use of a banned medication for a legitimate medical reason.**
- **Do not use supplements or take precautions prior to doing so. Supplement products cannot be verified by the CCES or in the Global DRO. A lack of industry and government regulation makes it impossible to confirm their ingredients. Read more: www.cces.ca/supplements.**
- **Review the steps of the doping control sample collection procedures: <https://cces.ca/sample-collection-procedures>.**

For additional resources and general information about anti-doping, please contact the CCES:

7. AGE AND WEIGHT DIVISION STANDARDS & SPECIFIC REGULATIONS

As per the IJF regulations, Age refers to THE AGE AS OF DECEMBER 31st; however, for events taking place in Canada in the first four months of the season (September through December), the age is calculated as of December 31st, of the second calendar year of the season. For example for the season starting on Sept 1, 2024, and ending on Aug 31, 2025, the age will be calculated as per the age of the member on December 31, 2025.

Hybrid age groups (U9 and U11) can be used at the discretion of tournament director. If such hybrid age groups are employed, the year of birth of competitors must be 2 consecutive years – I.e.:

U9 - For season 2024/25 individuals born in 2017 and 2018 (Rules of U10 will apply)

U11 – For season 2024/25 individuals born in 2015 and 2016. (Rules of U12 will apply.)

All participants should be awarded a prize (e.g. medal or certificate) at the end of the competition.

7.1.2.2. In sanctioned events

A “Judo Festival” format is recommended in which there is no formal judging. Such event should be conducted according to a schedule that allows parents to watch their children.

APPENDIX 06 DETAILED JOB DESCRIPTIONS

APPENDIX 06 DETAILED JOB DESCRIPTIONS

INTRODUCTION

This appendix contains detailed job descriptions for members of the organizing committee. The composition of the committee may vary slightly from event to event; however, most of the positions should match these recommended specifications. For National-level events, we recommend that the Local Organizing Committee includes at the minimum all the positions listed in this document.

Pending the scope and size of the event organized, in addition to specified positions, members of the organizing committee may need to recruit additional volunteers in order to assist them in carrying out their areas of responsibility. Be creative in looking for volunteers. Consider University and College students who may be looking for job experience.

The following job descriptions with specific responsibilities may seem overwhelming at first. However, if the tasks are divided and delegated accordingly, hosting a judo championship will be a worthwhile and enjoyable experience.

Remember - People are the Key:

The key to hosting any successful judo competition is a well-disciplined committee in which everyone is committed to the project and has a clear understanding of his or her role and areas of responsibility. When recruiting volunteers, it is essential that they are presented with a detailed job description, understand the reporting structure and how their position fits into the overall organization and most importantly, can commit to the number of hours required.

Lines of Authority and Decision Making:

Each member of the organizing committee should become familiar with the committee structure and areas of responsibility within each job description. Committee members are requested to respect the authority and responsibilities of other members by directing concerns or questions that do not fall within their mandate to the appropriate member in charge.

Customize:

The following job descriptions are available in electronic format, and therefore, easy to customize to the needs of the organizing committee. Personalize each job description! The title at the top of the page contains a field to type in the individual names.

- A bell is used to indicate the end of the time set for the contest, end of hold-down time, or to announce the end of the rest time granted by the Referee in special circumstances (injury, finals, etc.)
- If the “Golden Score” rule is used, when the time of the bout expires and the competitors are tied, the clock is reset and starts the golden score overtime, which has no time limit.

When an "Osae-komi" is called, the duration time of the fight should continue even if regulation time has expired and only be stopped by the referee's command "Ippon" or "Toketa"

APPENDIX 10 NE-WAZA SPECIFIC RULES

Ne-Waza Competition Rules

May 2018

SECTION 1 COURSE OF THE MATCH

All ne-waza fights are refereed under IJF competition rules. Minor differences are made to accommodate some specifics, but IJF rules are predominant to any specific rules.

Referee calls the competitors inside the mat. Fighters will enter the match area at the same time. The fighters will move towards the center of the fighting area and kneel down at a two meter distance. The fighters will then bow in that position. The fighters will then move to an up on one knee high kneeling stance at one metre distance. The fighter in white is at the right side of the Referee.

- If the athletes go outside the fighting area without applying a technique with apparent success, the referee should stop the match and restart the two athletes in a high-knee position at the centre of the fighting area.
- At the end of the match, the referee announces the winner and the fighters bow to each other (while on their knees) at a two metres distance. The fighters then exit the mat.

SECTION 2 SCORE AND POINTS

Points

<u>Ippon 20 points</u>	<u>Osae-komi Waza-ari 10 points</u>	<u>2 points (technical points)</u>
Strangulation (<u>Shime waza</u>) Arm locks (<u>Kansetsu waza</u>)	Osae-komi 10 seconds	1) Pass the guard or osae-komi with clear control: less than 10 seconds 2) Back mount 3) Back control 4) Sweep 5) Turnover 6) Shime/Kansetsu waza control but no submissions

Technical points can only be given once per attack sequence.

BACK MOUNT AND BACK CONTROL

Back mount is when the athlete is on top, clear of the guard and half-guard, sitting on the opponent's back and with two knees or one foot and one knee on the ground, facing the opponent's head. Back control is when an athlete is either sitting or on his lower back and

controls and faces his opponent's back. Back control is only considered if the knees are under the shoulder line. (See Appendix A section 1 for visual representation).

GUARD POSITION AND PASSING GUARD

Passing guard happens when the athlete in top position manages to surmount the legs of the opponent in bottom position (pass guard or half-guard) and maintain clear side-control or north-south position. (See Appendix A section 2 for visual representation)

- Guard is defined by the use of one or more legs to block the opponent from reaching side-control or north-south position over the athlete on bottom.
- To pass the guard of the opponent and continue with a clear control technique.
- When passing the guard of the opponent with no following control technique or reaching the half guard without good control (face to face), no points will be awarded.

SWEEPS

Any turn from the guard position into any top position followed by a clear control will be counted as a sweep and then 2 points will be awarded.

No points will be awarded for sweeps that start and end in a 50/50 (mutual) guard situation. To change the position from guard into the back of the opponent (on top) with clear control and hold the opponent in bottom position (at least one knee on the floor) will be regarded as sweep as well. (See Appendix A section 3 for visual representation)

OSAE-KOMI

Osae-komi will be called when a fighter has clear control of their opponent in kesa, shio or tate position. If Osae-komi is held for 10 seconds then the referee will signal waza-ari and 10 points will be scored. After waza-ari is awarded for the Osae-komi, the fighters will be allowed progressive work toward submission action. If there is no progress toward submission action, the referee will announcement matte and the fighters will restart in the centre in a kneeling position. If clear Osae-komi is held for less than 10 seconds then 2 points will be awarded. (See Appendix A section 4 for visual representation)

IJF edge regulation apply to all contests.

SUBMISSIONS - LOCKS AND STRANGULATIONS

All judo arm locks and strangulations resulting in apparent efficiency and/or forcing the opponent to abandon will result with an ippon score and victory.

TURNOVERS

2 Points will be awarded for turnovers. A turnover is defined as when uke is protecting himself on all fours or on his stomach and tori turns him over on his back and controls him.

SECTION 3

PENALTIES AND FORBIDDEN ACTS

IJF rules will apply for application of shidos.

- 3rd shido: Hansoku make
- When announcing a “shido”, the athlete to be penalized should not be allowed to continue to get a score. If neither athlete has an advantage position, the referee should stop the fight and replace the athletes in their respective starting position, punish the infractor and restart the fight.
- When announcing a foul, if one of the athletes has an advantage position, submission hold or is in osae-komi and the opponent committed the infraction, the referee shall apply the penalty to the infractor without stopping the fight; or when tori loses the upper hand. If the infractor is the athlete that is applying the submission hold or holding down his opponent, then “mate” will be announced and the athletes will be brought back to the centre in a high knee position and then the penalty will be announced.

3.1 Shido

All IJF rules apply for shido situations with the following specifications:

- Non-combativity:
 - a. Non-combativity (Passivity/stalling) is defined by one athlete clearly not pursuing positional progression in a match and also when an athlete impedes his opponent from carrying out said progression.
 - b. Leaving the mat or pushing without technical attack the opponent outside the mat.
 - c. When the athlete breaks the grip of the opponent pulling guard and does not return to the combat.
 - d. When both athletes simultaneously demonstrate a lack of combativeness (stalling) in any position in a match.
 - e. To escape from the fight on the ground, stand up and does not return to combat. It should be noted that athletes are allowed to stand up to pass the guard but they must return to the fight immediately within reasonable time otherwise they shall be penalized with a passivity/stalling penalty.

3.2 Hansoku make

IJF Rules will apply to all hansoku make situations.

SECTION 4 SETTLEMENT OF THE MATCH

- **Submission:**
A competitor may win the match before the end of the fighting time, if one of the contestants applies a lock or strangulation that make the opponent tap or the referee has to stop the match. This is called a submission.
- If a competitor accumulates a point total of 20 points
- If a competitor accumulates 3 shidos, he shall receive a hansoku make.
- After the fighting time has expired the contestant who has the most points at the end of the match will be the winner.
- If the score is equal in total points when the time has expired, both fighter will go in Golden Score until one fighter scores points or if one of the athletes get disqualified.
